

Esotec System 222

While individual drivers are available separately to offer complete system building flexibility, Dynaudio has packaged the most popular two-way driver complements with audiophile quality, competition-grade, adjustable passive crossover networks into component system packages to deliver the new Esotec performance quality at the highest level of value possible.

The Esotec System 222 is a two-way component system comprising one pair each of MW 152 woofers, MD 102 tweeters and X 252 crossovers along with all mounting hardware and grilles.

Esotec System 222

- Two-Way System
- 5.75" MSP-Woofer, 1.1" Soft-Dome Tweeter
- Frequency Response: 55 Hz – 25 kHz
- Sensitivity: 91 dB
- Continuous Power Handling: 200 Watts
- System Impedance: 4 Ω

Esotec Grilles

The original Dynaudio Protection Grilles separately are available for every driver.

Their massive and indestructible finish will make sure your build-in drivers never get damaged. The tutelary metal-grid is uncritical in acoustical behaviour and can be mounted free of resonances with usual screws. With their unobtrusive surfacefinish the Dynaudio grilles can be integrated inconspicuously in almost every interior to guide every attention to the essential – just to the music!

Esotec Grilles

- Inherently stable
- Acoustically permeable grid-structure
- Including mounting-ring with Dynaudio Logo
- Discreet anthracite varnish
- Excluding corresponding screws
