

PHONO BOX S2

„Best Buy“ MM/MC phono preamplifier

MSRP 149 € (incl. VAT)

- Audiophile Performance
- Dual mono configuration
- Audiophile-grade amplification modules
- Audiophile-grade polypropylene WIMA capacitors
- Precise RIAA equalisation
- Switchable Subsonic filter –12dB @ 20Hz
- Switchable input impedance/capacitance
- 4 adjustable gain levels
- Outstanding sound quality

colour options:

Input impedance: 10/100/1k/47kOhms

Input capacitance: 100/200/320/420pF

Gain switch: 40/43/60/63dB

Subsonic switch: -12dB @ 20Hz

Signal-to-noise ratio: 85dB

THD+N: 0,01% MM/ 0,05% MC

RIAA accuracy: < 0,4dB / 20Hz - 20kHz

In/Out sockets: 1 pair RCA connectors

Power consumption: 18V/85mA

Outboard power supply: 18Volt DC/500mA

Dimensions (WxHxD): 103 x 36 x 104 (115) mm

Face plate colour: silver or black

Weight: 570 g net

Phono Box S2 - setting new standards for entry-level phono stages!

Phono Box S was one of our favourite products, it offered unrivalled sonics and versatility at a very affordable price. When we started creating Phono Box S2, its successor, it had to have exactly that but improve on sound even further. Phono Box S2 features incredible micro-details, dynamics and precision with a soundstage usually found in much more expensive products. The new S2 style housing is made of an aluminium/metal sandwich construction and not only offers highest aesthetics but also outstandingly protects it from unwanted electromagnetic interferences and vibrations. This guarantees for an undisturbed listening experience without worries. The switches on the bottom of the unit allow fine tuning the sound to your preferences and adjusting Phono Box S2 to any available cartridge! Phono Box S was considered the best option of all entry-level phono stages by many

acclaimed hifi magazines, Phono Box S2 is sure to follow its predecessor's footsteps and will set new standards at this price point!
