

Esotec System 242

The Esotec System 242 is a two-way component system comprising one pair each of MW 162 woofers, MD 102 tweeters and X 252 crossovers along with all mounting hardware and grilles.

Dynaudio's Esotec component sets are designed to facilitate performance optimized system synergies offering an unprecedented level of sound quality and flexibility in a wide range of applications and vehicles. The new Esotec car series crossovers are impedance-corrected and truly linear, thus enabling a wide variety of power amplifiers to be ideally utilized to drive the entire range of Esotec loudspeaker models, allowing the full potential of the Dynaudio system to be realized – something essential for a perfectly harmonious and comprehensive system performance.

Esotec System 242

- Two-Way System
- 7" MSP-Woofer, 1.1" Soft-Dome Tweeter
- Frequency Response: 55 Hz – 25 kHz
- Sensitivity: 90 dB
- Continuous Power Handling: 100 Watts
- System Impedance: 4 Ω

Esotec System 242 GT

The Esotec System 242 GT is a two-way component system comprising one pair each of MW 162 GT woofers, MD 102 tweeters and X 252 crossovers along with all mounting hardware and grilles.

In order to perfectly integrate the improved drivers, the Esotec component systems feature new crossover designs updated with optimized parameters. The balanced frequency response of the Dynaudio Esotec automotive loudspeaker series is not simply the result of the superior drivers utilized, but also a product of the accurate fine-tuning in the crossover.

Esotec System 242 GT

- Two-Way System
- 7" MSP-Woofer, 1.1" Soft-Dome Tweeter
- Frequency Response: 55 Hz – 25 kHz
- Sensitivity: 90 dB
- Continuous Power Handling: 100 Watts
- System Impedance: 4 Ω
